

【 Build a solid foundation in math learning ! 】

Abacus, the traditional Chinese “calculator”, has been an effective tool to teach entry-level math to children. Through the structure of beads, children built a clear concept about place value. The challenging concept of re-grouping in addition and subtraction becomes easier with the help of visual aids of Abacus beads. Multiplication and division come naturally after they master the speed.

In this beginning class, the teacher will first introduce how to use the abacus. Then gradually introduce one or two basic rules of addition or subtraction every week. Homework assignment is important for students to get familiar with the rules and improve speed. After the initial period, the teacher will custom the learning speed to each child based on their progress.

Suitable age: 5 years or older, first time learner.

Class Date/Time :

Tuesday Sessions: **ABA21: 3:30-4:30pm,**
 ABA22: 4:30-5:30pm,
 ABA23: 5:30-6:30pm,
 ABA24: 6:30-7:30 pm

9/15, 9/22, 9/29, 10/6, 10/13, 10/20, 10/27, 11/3, 11/10, 11/17, 12/1, 12/8, 12/15 (13 classes)

Saturday Sessions: **ABA61: 2:00-3:00pm,**
 ABA62: 3:00-4:00pm

9/19, 9/26, 10/3, 10/10, 10/17, 10/24, 10/31, 11/7, 11/14, 11/21, 12/5, 12/12, 12/19 (13 classes)

Tuition: Fall season 13 weeks \$300. Additional material fee paid directly to the teachers ◦

Registration: Please visit Books and Me Library to register in person.

Other rules please visit our website www.booksandme.org.

Our Teacher

Ms. Fen-chiou Chen: certified Abacus teacher by Chinese American Abacus Association. Has been teaching since year 2001 at various locations like 六藝中文學校、凱風中文學校、PowerMath. Some of her students already got Duan level certificate.
