### Our Teacher

**Ms. Connie Chang:** Ms. Chen graduated from Lynbrook High School at Cupertino. She then obtained her Bachelor of Science in Secondary Education from Northwestern University. Ms. Chen has been a full-time math teacher at a private high school in San Jose for 5 years. Having gone through the high school locally herself and been a teacher, she understands clearly what are the important skills and concepts that students must master before going to high schools. Ms. Chen is looking forward to getting to know each student and build a class that will prepare them for HS mathematics.
