

## Beast ACADEMY

**Beast Academy© Math** is different from any other math textbooks.  
They are **comic books!**

The curriculum used comic characters to explain math concepts, and the practice books are designed like math games. The curriculum emphasizes on concept exploration, problem solving, and mastering of arithmetic skills.

Beast Academy© is a curriculum designed by Art of Problem Solving, the publisher of the competition math book series. Check it out at [www.beastacademy.com](http://www.beastacademy.com).

### Our Teacher

**Ms. Alice Lai** has received her B.S. degree in Computer Science from San Francisco State University. She has worked in IT industry for more than 20 years. She has been home tutoring her two sons' math from very young age all the way to colleges. Ms. Lai believes that mastering mental math skill is critical to the learning of elementary mathematics. She is very patient with young children and hopes to bring fun memories to math learning in her class.
